

RADIATOR, Inc.

MESABI[®]
FLEXIBLE CORE HEAT EXCHANGERS

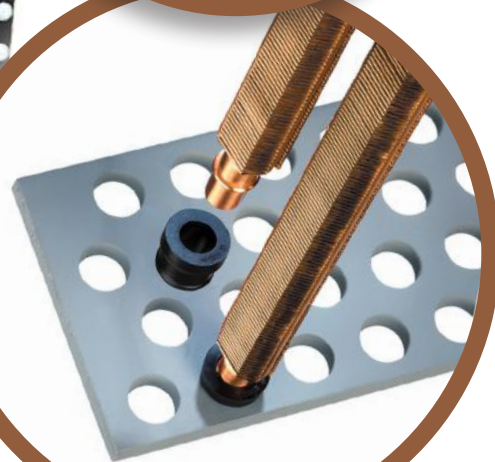

- NO LEAKY SOLDERED SEAMS**
Individual cooling tubes are held in headers with rubber seals to absorb stresses and vibration.
- FIELD REPAIRABLE**
Seals allow any damaged tubes to be removed and replaced in-the-field, often without removing the radiator from equipment.
- EASY TO CLEAN**
With the V-tube core, tubes are arranged to create open passages so dirt and debris can blow through the radiator.
- 48-MONTH WARRANTY AGAINST SEALS LEAKING**

MESABI[®] Retrofit

Replacement Radiators

for Caterpillar[®] D6T

**Clog-resistant
Passages**

MESABI[®]
